

## Technical Experience

- |   |                                      |                            |
|---|--------------------------------------|----------------------------|
| <b>Full Stack Developer</b>   | <b>Quinence (Remote - Singapore)</b> | <b>June 2022 - Present</b> |
| <ul style="list-style-type: none"> <li>Building <a href="#">Modern Fullstack</a>: an interactive platform to learn new technologies.</li> <li>Researching and building extremely detailed courses for <a href="#">GraphQL</a> and <a href="#">Supabase</a> on Modern Fullstack.</li> <li>Built key components of <a href="#">The Soulless Citadel</a>, the <b>third most traded NFT collection</b> on the Zilliqa Blockchain.</li> <li>Built complex <b>backend</b> for a <a href="#">realtime NFT based card game</a> using <b>GraphQL</b> and <b>Postgres</b> via <b>Supabase</b>.</li> <li>Authored the <a href="#">minting Smart Contract</a> for The Soulless Citadel Women Warrior NFT Collection featuring <b>intricate discount algorithms</b>, resulting in sales of ~\$368,940 (~1,18,25,000 ZIL) through <b>5,555 minted tokens</b>.</li> <li>Developed a robust <a href="#">NFT Marketplace Smart Contract</a> in <b>Scilla</b> for The Soulless Citadel, supporting bids, listings, and fiat payments; facilitated ~2k transactions.</li> <li>Built frontend for <a href="#">Neokard</a>, an <b>NFT gifting platform</b> using <b>Next.js</b> and <b>Tailwind</b></li> </ul> |                                      |                            |
| <b>Frontend Developer, Intern (6 Months)</b>  | <b>Increff (Bengaluru-India)</b>     | <b>Jan 2022 - May 2022</b> |
| <ul style="list-style-type: none"> <li>Built <a href="#">Point of Sale</a> backend using <b>Java Spring</b> during training.</li> <li>Built UI for an <a href="#">e-commerce store</a> using vanilla JS and CSS. Later <a href="#">migrated it to Angular</a>.</li> </ul>   |                                      |                            |
| <b>Flutter Developer, Intern (4 Months)</b>   | <b>Digimall (Gurugram-India)</b>     | <b>Feb 2021 - May 2021</b> |
| <ul style="list-style-type: none"> <li>Developed and released the <a href="#">DigiMall app</a>, a quick commerce app, even before Blinkit.</li> <li>Added <b>location-based data fetching</b> strategy to show nearby stores.</li> <li>Worked on building a lightweight <b>PWA</b>, built with <b>React</b>.</li> </ul>   |                                      |                            |

## Hobby Projects

- GitaGPT** - [Visit](#)
- A simple app built with **Next.js 13**, **OpenAI** and **Firebase** giving life advice from The Bhagavad Gita. Received **13 Million+** views. Received good media coverage: [TimesNow](#), [Economic Times](#), [News18](#), [MoneyControl](#) and [more](#).
- JUMS Reboot** - [Download App](#) - [Source Code](#)
- An app for Jadavpur University students to instantly get their admit cards, grade cards, exam routines, etc.
  - 500+ Downloads** and **5.0 Stars** on Google Play Store.
  - Technologies: Flutter NodeJS, ExpressJS** for backend server. Deployed on **Heroku**.
  - Puppeteer** for running headless chrome in the backend for scraping data. | **Codemagic** for **Continuous Deployment**
- Stroll** - [Try it](#) - [Source Code](#)
- Stroll, A Chrome Extension**, designed to enhance the UX on Stack Overflow by auto-scrolling to the most accepted answer, saving you 30 secs daily. **Technologies: Manifest v3, JavaScript**. Landing Page with - **Next.js** and **Particle.js**
- Projectgram** - [API Docs](#) - [API Source Code](#) - [Visit](#) - [Client app Source Code](#)
- ProjectGram is **Full-Stack, Open-Source portfolio-based** platform to share your side project with the World.
  - Frontend - **Next.js (React)** and **Chakra UI, TypeScript** | Backend - **NestJS (Express)**, Database - **PostgreSQL**

## Skills

JavaScript, TypeScript, React.js, Remix.js, Next.js, HTML5, CSS3, Tailwind CSS, GraphQL, Redux | Supabase, SQL, PostgreSQL, Firebase, NestJS, NodeJS | Scilla, AWS, Google Analytics

## Education

- |  |                            |                             |
|--|----------------------------|-----------------------------|
| <b>Kolkata, India</b>  | <b>Jadavpur University</b> | <b>Aug 2018 - June 2022</b> |
| <ul style="list-style-type: none"> <li><b>Bachelor of Engineering</b> in Printing Engineering   CGPA: 8.77/10</li> </ul> |                            |                             |
