PROFESSIONAL EXPERIENCE

QUINENCE ⧉   Singapore, Remote
Software Engineer (Full-Stack)   June 2022 - Present

Fuschia Careers
- **Leading end-to-end redevelopment** of a high-volume recruiting firm's ATS and talent pipeline, enhancing functionality, performance, and reliability; integrated **AI (LLM)** to optimize recruiter workflows.

Modern Fullstack - Interactive personalized tech training platform
- Architected and developed the website and backend using **Remix (React), GraphQL,** and **Postgres (Supabase),** deployed on **AWS** and **Cloudflare**; mentored interns.
- Built an advanced **email marketing tool with scheduling**, using **AWS Lambda, EventBridge**, and **PostgreSQL**, automating personalized user communications for onboarding, engagement, and retention.
- Achieved **10X performance boost** for the website by architecture redesign, caching and predictive prefetching.
- Developed the **Quiz API** with a dynamic question selection algorithm based on the user's real-time performance.
- Built a **GitHub-based CMS** with content deployment to globally distributed **Cloudflare R2**, reducing content update times **by 100%**.
- Researched and built interactive detailed courses on Remix, GraphQL, and Supabase. Endorsed by Supabase CEO.

The Soulless Citadel - The Third most traded NFT collection on the Zilliqa blockchain
- Developed a high-performance, real-time NFT **card game backend** using GraphQL and Postgres.
- Built NFT Marketplace Frontend and Smart Contract supporting bids, listings, and fiat payments; facilitated **2,200+ transactions.**
- Wrote the Minting Smart Contract featuring **intricate discount algorithms**, resulting in sales of **~$368,940.**

INCREFF   Bengaluru, India
SDE-I UI (Intern)   Jan 2022 - May 2022
- Built a Point of Sale backend using Java Spring. Built UI for the e-commerce store using Angular.

PERSONAL PROJECTS

GITAGPT   Website - Download App - App Source Code
- Built this viral **AI platform**, giving life advice from The Bhagavad Gita. Received **13 Million+ views**. Featured in: TimesNow, Economic Times, News18, MoneyControl and more. Tech: **Next.js, React Native (app), OpenAI**

MYPRS   PRs by Kishan **-** Source Code
- The 'link-in-bio' for your Open-Source PRs. Curate a selection of your proudest GitHub PRs, showcase your expertise, and set yourself apart in the crowd. **Remix (React), TypeScript, TailwindCSS, shadcn/ui, PostgreSQL**
